Septic osteoradionecrosis of the mandible associated with pathological fracture: report of two cases	408
Technetium-99m bone scintigraphy and mandibular condylar hyperplasia	411
Case report: malignant fibrous histiocytoma complicating chronic osteomyelitis	435

BREAST

The role of computed tomography in the investigation of recurrent axillary disease in patients with carcinoma of the breast	31
The accuracy of mammographic diagnosis in surgically occult breast lesions	344
Mammography screening - reasons for recall and the influence of experience on recall in the Finnish system	384
Mammography in the pre-operative assessment and post-operative surveillance of patients treated by excision and radiotherapy for primary breast cancer	388

CARDIOVASCULAR

CT of swollen legs	24
Case report: gas in an infected vascular prosthesis. An unusual finding on plain radiographs	60
Case report: tortuous vertebral artery - onset of symptoms during pregnancy	66
Primary pulmonary artery sarcoma - a report of two cases, with special emphasis on the diagnostic problems	92
Case report: delayed cardiac tamponade following accidental injection of non-ionic contrast medium into the pericardium	139
Is screening for abdominal aortic aneurysm worthwhile?	182
The incidence of popliteal aneurysms in patients with arteriomegaly	185
Portal venous collateral drainage in IVC obstruction	206
Case report: ultrasonic and comparative angiographic appearances of a spontaneous aorto-caval fistula	286
The incidence and sites of medial thigh communicating veins: a phlebographic study	339

CENTRAL NERVOUS SYSTEM (INCLUDING SKULL AND SPINE)

Role of magnetic resonance imaging (MR) in the diagnosis and management of intracranial tuberculomas	120
The application of clinical guidelines for skull radiography in the accident and emergency department: theory and practice	152
The psoas sign in normal subjects without bowel preparation: the influence of scoliosis on visualisation	204
Case report: magnetic resonance imaging with gadolinium-DTPA enhancement in the differentiation of benign from neoplastic cord cavitation	214
CT of the spine: are plain radiographs necessary?	317
Case report: cerebral arteritis with unusual distribution	353
Case report: cerebral venous thrombosis in association with hormonal supplement therapy	355
Occult diastematomyelia in adults - report of two cases	415
Case report: mycotic pseudoaneurysm of the descending thoracic aorta associated with vertebral osteomyelitis	427
Case report: acute extradural compression due to an intraspinal synovial cyst: CT and myelogram appearances	433

DIGESTIVE TRACT AND ABDOMEN

Thickened stomach - an ultrasound sign of portal hypertension	17
Sclerosing encapsulating peritonitis in chronic ambulatory peritoneal dialysis	19
Ultrasound of the palpable abdominal mass	98
Computed tomographic peritoneography in the investigation of abdominal wall and genital swelling in patients on continuous ambulatory peritoneal dialysis	100
Case report: gastrointestinal bleeding due to multiple ileal duplications diagnosed by scintigraphy and barium studies	134
Case report: gastrobronchial fistula	141
Radiological changes in the gastrointestinal and genitourinary tract following radiotherapy for carcinoma of the cervix	165
Rectosigmoid obstruction caused by ovarian cancer	170
Effects of buscopan on gastro-oesophageal reflux and hiatus hernia	250
Through the colonoscope - a radiologist's view	253
The nodular duodenum in chronic renal failure	326
Determining the minimum interval between cleansing water enema and double-contrast barium enema examination	331
Demonstration of para-ileostomy herniation using computed tomography	333
Coarse mucosal folds in the duodenum: a twenty year follow-up	421
Case report: an unusual angiogram in a patient with gastrointestinal bleeding	425

EAR, NOSE, THROAT, MOUTH AND EYES

Imaging cholesteatoma	156
Radiography of the paranasal sinuses – one or three views?	163
Thin section computed tomography in the evaluation of naso-ethmoidal trauma	272
Glomus tumours of the ear: an imaging regime	301
CT scanning in patients following surgery on the tongue and floor of mouth	306
Radiological assessment of post laryngectomy speech	312
Case report: complete laryngotracheoesophageal cleft: CT diagnosis and associated abnormalities	437

EDITORIALS, REVIEWS, OPINIONS AND PERSONAL VIEWS

ENDOCRINE SYSTEM

Ultrasound appearances of De Quervain's thyroiditis	57
Case report: CT scanning as an adjunct to screening for medullary carcinoma of the thyroid	209
Pre-operative localisation in primary hyperparathyroidism	239

HAEMOPOIETIC, LYMPHATIC, RETICULOENDOTHELIAL SYSTEMS

CT features of histiocytic medullary reticulosis	201
Does lymphangiography have any role in the management of early non-seminomatous germ cell tumours?	392

INTERVENTIONAL TECHNIQUES

Extremity doses during interventional radiology	34
Case report: percutaneous angioplasty of the superior gluteal artery in the treatment of buttock claudication	63
Ultrasound guided fine needle aspiration of ovarian cysts: diagnosis and treatment in pregnant and non-pregnant women	105
Technical report: splenic artery aneurysm embolisation – the preferred technique to surgery	281
Technical report: aneurysm formation after dynamic catheter assisted balloon angioplasty	283
Case report: iliac artery rupture during percutaneous angioplasty	358
The complication rate of percutaneous peripheral balloon angioplasty	380

MISCELLANEOUS

The role of ultrasound in the detection of non-radiopaque foreign bodies	109
Accident and emergency reporting in UK teaching departments	264
Subjective experiences of magnetic resonance imaging	276

PAEDIATRIC

Injection rate: a factor in contrast reactions?	42
Technical development: a modified pigtail catheter for transbrachial aortography	128
Technical problem: impacted retained distal common duct stone	130
Powered cutting needle biopsy of the pleura and chest wall	199
A double blind clinical study comparing the safety, tolerance and efficacy of ioversol 240 and iohexol 240 (omnipaque 240) in ascending venography	268
World Health Organization-Basic Radiographic System (WHO-BRS) Unit experimental clinical evaluation	321
A double-blind comparison of iopromide and iopamidol in intravenous urography	405

URINARY TRACT

Indirect radionuclide cystography demonstrates reflux under physiological conditions	44
Case report: renal excretion of enteral gastrografin in the absence of free intestinal perforation	137
Radiological changes in the gastrointestinal and genitourinary tract following radiotherapy for carcinoma of the cervix	165
Case report: congenital mesoblastic nephroma occurring in a solitary kidney	211
Acquired cystic disease of the kidney: ultrasound as the primary screening procedure	248
Accuracy in staging carcinoma of the bladder by magnetic resonance imaging	258
Case report: the sonographic appearance of cyclophosphamide-induced acute haemorrhagic cystitis	289
Case report: gadopentetate dimeglumine enhanced MRI in an anephric patient on dialysis	430
